

For Enrollment October 2018
Prospectus for International Graduate Program for Global Engineers
Nagoya Institute of Technology

1. **General Information**

Nagoya is at the heart of Japan's industrial area, and famous as the heart of the Japanese manufacturing industry. Nagoya Institute of Technology (NITech) is the longest established national higher education institute of engineering in this area. Many of our alumni are working in major companies related to the manufacturing industry.

Because Japanese manufacturing industry is rapidly expanding its business worldwide, especially into Asian countries, NITech has launched a master course program for manufacturing technology. The program is designed for overseas students who want to develop a career in the Japanese manufacturing industry.

Several manufacturing companies in the region cooperate with the program, and some of them will offer students internship opportunities. The graduates of this program are expected to find employment in Japanese companies in manufacturing industry, and play an important role worldwide as a highly-skilled engineer.

2. **Program (subject to change)**

This program is based on the curriculum of the existing master courses and it also offers some additional subjects aimed to develop highly-skilled engineers for the manufacturing industry. The students can choose his/her course from the following:

- a) Department of Life Science and Applied Chemistry
- b) Department of Physical Science and Engineering
- c) Department of Electrical and Mechanical Engineering
- d) Department of Computer Science
- e) Department of Architecture, Civil Engineering and Industrial Management Engineering

The introduction of each department can be seen on the NITech 's website.

<http://www.nitech.ac.jp/eng/about/departments/index.html>

Besides the existing curriculum of each master course, the students will take the following special subjects.

- (1) Subjects of Production Engineering
 - 1) A "Introduction to Automobile Engineering" is given for all students.
 - 2) A "Special study of Production Engineering" is given in each department
- (2) Multicultural Symbiosis

Japanese manufacturing companies are expanding their businesses worldwide. Students learn the strength and weakness of such Japanese companies and how to deal the business in the advancing globalism. The subject is featured by the practical study

of “Kaizen”, the unique improvement activities carried out in the Japanese manufacturing companies, offering the practical experiences in the factories.

(3) **Global Human Resources**

This subject is designed also for Japanese students who have strong interest in working overseas. Both International and Japanese students work together on the tasks related to their own cultures and languages, aiming to develop themselves to be “Global Human Resources” and to develop the carrier plan in global business.

(4) **Japanese/Business Japanese**

The program offers 1 year’s comprehensive Japanese course, which consist of basic course in the first half and advanced course in the latter half. The advanced course aims to acquire business Japanese, particularly Japanese used in the manufacturing industry. The goal is to be qualified for Level N2 of JLPT.

(5) **Internship**

All students should carry out his/her internship in Japanese companies.

(6) **Thesis**

All students should write his/her thesis on a specific theme related to manufacturing technology in each specialized field of study.

The duration of this program is two years from October of 2018 to September of 2020. Students are not required to possess background knowledge of Japanese, but a strong will to study Japanese is required. The lectures of this program are given either in English or Japanese. In case the lecture is given in Japanese, the students will receive supplementary explanation in English.

3. Number of Students

The number of students to be admitted is TEN (10).

4. Japanese Government Scholarship

Applicants with excellent academic records are entitled to apply for the Japanese Government Scholarship (Monbukagakusho Scholarship). The monthly stipend of the scholarship is 144,000 (JPY) for graduate students (the amount of the scholarship is subject to change according to the rules of the Japanese Government). The successful students for the Japanese Government Scholarship are exempt from paying the application fee, the admission fee, and the tuition fee described in Article 8.

Japanese Government Scholarship will be granted to 5 students.

5. Qualifications

(1) Applicants must satisfy the following conditions.

- 1) Must complete or will complete a 16-year school curriculum in a foreign country by September 30, 2018.
- 2) Must have excellent academic marks.

The Grade Point Averages (GPA)* should meet 2.3 or higher for the past 2 years

* GPA will be calculated using the 3.0 grading scale. For the details of calculation of GPA, please contact International Student Affairs Office of NITech.

- (2) Applicants must have been born on or after April 2, 1983.
- (3) Applicants must have nationality of a country recognized by the Japanese government. However, those with Japanese nationality at the time of application are not eligible.
- (4) Japanese language proficiency is not required but sufficient English ability is required to carry out research and attend classes.
- (5) Applicants must be free from any mental or physical disabilities that affect studies.
- (6) The following persons are not eligible.
 - 1) Former MEXT scholarship students whose last receipt is less than 3 years ago (However, this does not include former Japanese studies students and students of Japan-Korea Joint Government Scholarship Program for the Students in Science and Engineering Departments)
 - 2) Students who cannot complete their studies within the standard number of years required for graduation (excluding stop-outs).
 - 3) Applicants whose main purpose is to acquire license in fields such as medical, law and/or teaching.
 - 4) Soldiers and military civilian employees.
 - 5) Applicants who cannot arrive in Japan on the date specified by the MEXT.
 - 6) Recipients of other scholarships.
 - 7) Students applying to more than one university, to the MEXT scholarship 2018 through Embassy Recommendation, and to the JASSO Student Exchange Program Scholarship 2018.

6. Application Procedure

The applicant should contact the academic advisor first, and obtain the approval of the academic advisor on his/her study in this program. Next, the applicant should send the following documents to International Student Affairs Office of NITech (see the contact address shown in 9) by January 12, 2018. (The date of deadline may be changed.)

Note: If it is difficult to submit some of these documents before the closing date for an unavoidable reason, please consult with the academic advisor in advance.

- (1) Application Form (attached form: original, no photocopies)
 - *One photo taken within the past 6 months (4.5cm×3.5cm) should be attached.
- (2) Field of Study and Study Program [Research Proposal] (attached form)
- (3) Official transcript of academic record (for the past 2 years) (original or certified copies)
- (4) Summary of Thesis (free format)
 - *Outline of your study or research in your undergraduate course.
- (5) Recommendation Letter from the Dean or equivalent official of the applicant's home university addressed to the President of NITech (free format) (original or photocopies)
- (6) Certificate of Graduation or Expected Graduation (original or certified copies)
- (7) Language certificate (English or Japanese), if available.

- (8) Copy of your passport containing the page of your name and photo
- (9) Pledge (attached form: original, no photocopies)

Note;

- * These documents should be made in English with word-processing software and printed double-sided on size A4 paper.
- * Submitted documents will not be returned.
- * Your application will not be evaluated if the above documents are incomplete or not accurately completed. Applications that arrive after the deadline will not be accepted.

7. Selection and Notification

1. Application Period

Deadline: Friday, January 12, 2018

2. Screening

Based on the application form, academic transcripts, other documents submitted, and interview (including an Internet-based interview).

3. Date of Examination

Will be announced after submission of application documents.

4. Notification of Result

Will be announced by Friday, March 9, 2018.

8. Application Fee, Admission Fee, and Tuition Fee

All the application except the successful applicants who are awarded the Japanese Government Scholarship will be required to pay the following fee:

Application Fee	30,000JPY
-----------------	-----------

Successful Applicants who are not awarded the Japanese Government Scholarship will be required to pay the following fees:

Admission Fee	282,000JPY
---------------	------------

Tuition Fee	535,800JPY
-------------	------------

(The admission and tuition fees are subject to change.)

Applicants will be informed of the payment method after the notification of their admission result. Admission Fee and Tuition Fee can be exempted or the payment can be postponed upon request. Students who wish for the exemption or payment postponement are required to submit the application form. The detailed procedure and deadline will be informed to successful applicants separately.

9. Accommodation

NITech has a dormitory for overseas students in the main campus. Graduate students are required to stay in the dormitory for a year.

10. Contact Address

International Student Affairs Office

Nagoya Institute of Technology

Gokiso-cho, Showa-ku, Nagoya, Aichi 466-8555, Japan

Tel:+81-52-735-5079, 5608

Fax:+81-52-735-5080
